DEPARTMENT OF THE INTERIOR.

NOTICE.—The DAILY, for the use of the Department of the Interior, will be received by mail until 3 o'clock, p.m., on the 30th day of June, 1851, unaccompanied by satisfactory documents, and will be considered as a copy of the DAILY.

All the articles of stationery must be of the very best quality, samples of the principal articles of which—such as paper, quills, ink, etc.—will be submitted to a committee of three, to be appointed by the Secretary of the Interior, and the department reserves the right to retain any samples, and pay the same at the rates stated in the offer, or to return them, at its option. No bid will be considered as valid unless it is made of the kind and quality required for the department.

Each proposal must be signed by the individual or firm making it, and must specify the price, for each article, and the time of delivery in the schedule. Should any articles be required not accommodated, they are to be furnished at the lowest market price, according to a quantity. Blank forms, with space for the name of the department, and the particular applying for them; and, as, without any such form, the department would find it difficult to make a decision, none will be taken into consideration unless substantially accompanied by it.

The printing must be executed with new and perfect type, and on the best paper used for the different classes required. The paper for the printing will be supplied by the contractor, and the department reserves the right to designate the kind of paper and type, whether script or otherwise, and the number to go on a sheet, when the master or article will admit of more than one.

The department reserves the right to demand that all contracts must be of the best quality, and delivered without delay when ordered, and to the satisfaction of the head of the office for which they are required.

The department reserves to itself the right of ordering a greater or less quantity of each article contracted for, as the public service may require.

The printing security, to be given by the person or persons contracting; and, in case of failure to supply the articles, or to perform the work, the contractor and his sureties shall be liable for the amount of the sum paid for the articles.

The askings lists specify, as nearly as now can be done, the amount, quality, and description of each of the kinds of articles and work that will be wanted.

The contractor is to give a precise description of the nature and quality of the various kinds of printing, bidders are referred to the samples in the different offices for specimens of the general descriptions required.
